

IHPeng International Seminar

Helical piling is an increasingly significant foundation solution in many important sectors around the world, replacing concrete as the preferred construction choice.

Learn how your project can benefit by using the method and hear from local and international experts in the field.

The Institute of Helical Pile Engineering is holding its first seminar on the 9th September 2010 at the ICE Headquarters, One Great George Street London. The seminar is bringing together experts from the global helical piling industry to share knowledge and experience.

HELICAL PILING - A SERIOUS UNIVERSAL TECHNOLOGY WITH SOUND DESIGN PRINCIPLES

The Institute Of Civil Engineers

**Thursday 9th September 2010
One Great George Street, London**

For your early-bird discount rate, use
promo code NC1
